Sawtooth Technologies, LLC.
Form 499 Filer ID: 827413

For the time period 2012:

Sawtooth Technologies, LLC. is a small company and a reseller of telecommunications services. Our primary business is as an Internet Service Provider. We provide local services and wide area network data networks for large government and commercial accounts, as well as to a small number of individual customers. We do not currently provide long distance service.

Most of our customers are governmental agencies, libraries or schools, where projects are awarded through the public bid process or through the E-Rate system. For those customers, Sawtooth performs marketing primarily through federal, state and local government public bid processes. Our company follows the rules for each bid, which ensure fairness for each bidder.

We simply do not use customers' CPNI (or other private customer information) in marketing or otherwise, nor do we sell or give private customer information or CPNI to third parties.

All private customer information is kept secure. Security practices are maintained in compliance with federal government encryption standards and in accordance with the terms of our contracts with the government.

Annually and more often if needed, we provide training of employees and sub-contractors, performed through a company meeting and emails, describing the process we employ for maintaining the security of customer information. Employees and subcontractors who fail to comply are subject to disciplinary action.

I, Brian Adams, manager of Sawtooth Technologies, LLC., declare under penalty of perjury that the foregoing is true and correct.

Brian Adams
Manager,
